Bob:

I am concerned about the recent rude and unethical behavior of one of the "pilot" committee members..Steve Orr. I f he is going to do his own fact finding and disregard the process the committee has established..I have great doubts of what will happen to information he receives from the community responses. The credibility and validity of the "pilot" committee is endangered. I would make the suggestion to my associates that the survey be held until he is removed or resigns from the committee.
